About Me

I'm a motivated undergraduate student passionate about using technology to solve problems. Skilled in Html, Css, C programming, data structures, and algorithms. Proficient in Excel, PowerPoint, and Word for effective communication. Fluent in English, with clear technical communication skills.

Experience

Software Development Projects:

- Implemented data structures and algorithms in C to solve real-world problems, demonstrating problem-solving skills and logical thinking.
- Collaborated with classmates on software projects, effectively communicating ideas and contributing to project success.

Web Development Projects:

- Designed and developed responsive websites using HTML and CSS, incorporating modern design principles for enhanced user experience.
- Utilized CSS frameworks like Bootstrap to streamline development and ensure cross-browser compatibility.

Microsoft Office Projects:

- Created professional documents and presentations in Microsoft Word and PowerPoint, showcasing effective communication and presentation skills.
- Developed complex spreadsheets in Excel for data analysis and visualization, demonstrating proficiency in data manipulation and interpretation.

Education

- Bachelor of technology
- 2023-2027

Skills

- c programming
- data structures in c
- html,css
- word,excel,powerpoint
- Auto cad
- fluent in english
